What is your vision of mountain biking in Nelson/Tasman?

I would encourage Council to continue, and improve, access and use of public assets to increase recreational and business opportunities within the Mountain biking community.

What is your vision of general cycling for transport and recreation in Nelson/ Tasman?

The option of cycling being a first and best pick transport option is fast being adopted by the community and is part of a wider solution to transport issues and healthy options for recreation. It's such a great way to connect to our region.

Have you had any involvement, support or interest in mountain biking our members may be interested in?

I am an advocate, and enjoy riding my bikes with my kids but a big chicken when it comes to the downhill stuff. I'll leave that to my mad friends.

What action do you plan to take in the next three years to support and realise your vision of mountain biking and cycling?

I don't have the answers to this one, as I believe that the Mountain Biking community are best to lead this. I'm there to have that discussion.

How would you further realise the economic benefits of the tens of millions of dollars that mountain biking brings to our region?

Similarly I don't have an opinion at present without contributions of the MBC
